

# Discussion

# Presentation 1: EF and ASD

(Hilde Geurts)

ASD

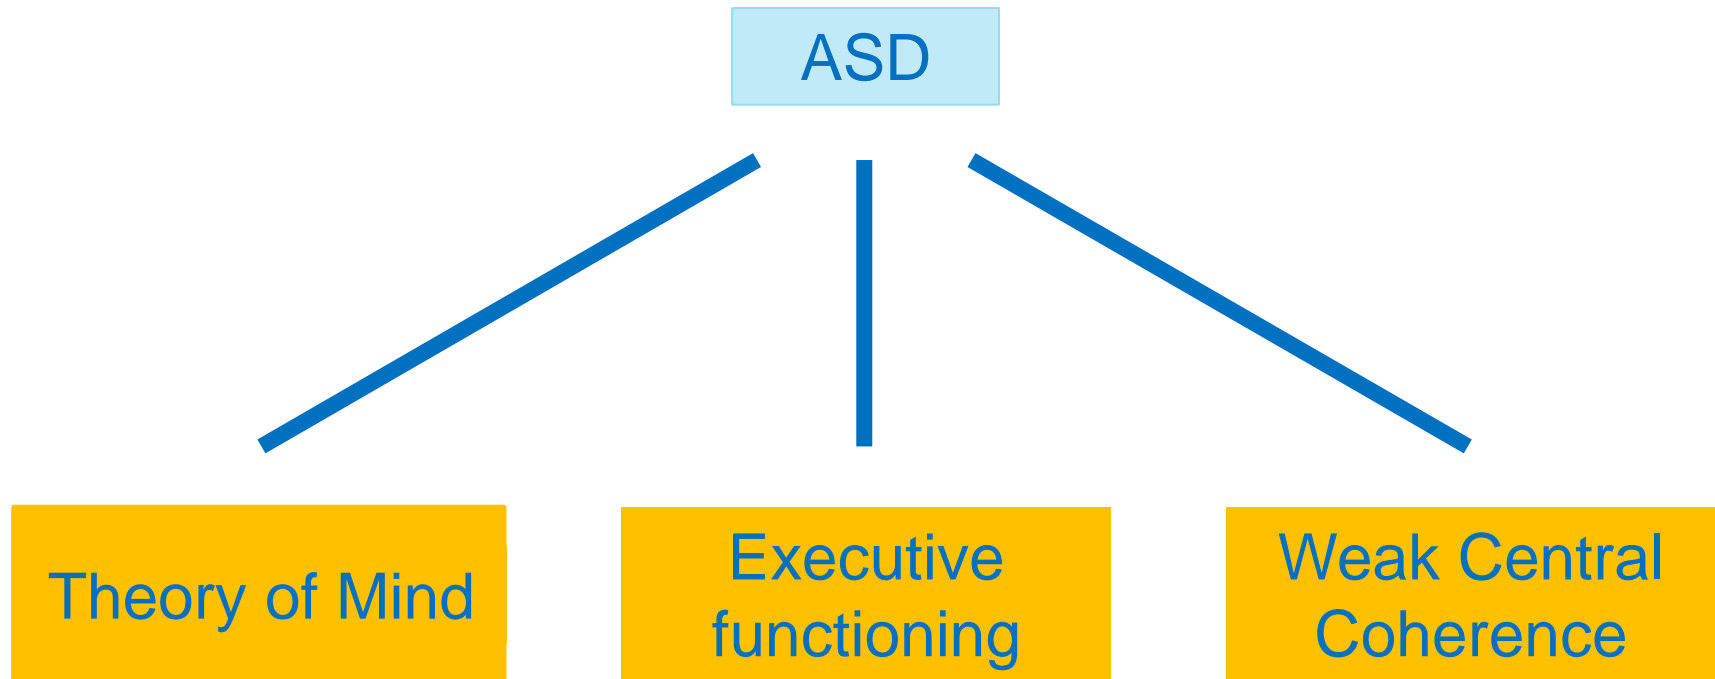

Executive  
functioning

EF problems in ASD:  
Neither universal nor specific,  
thus no primary cause

# Presentation 1: EF and ASD

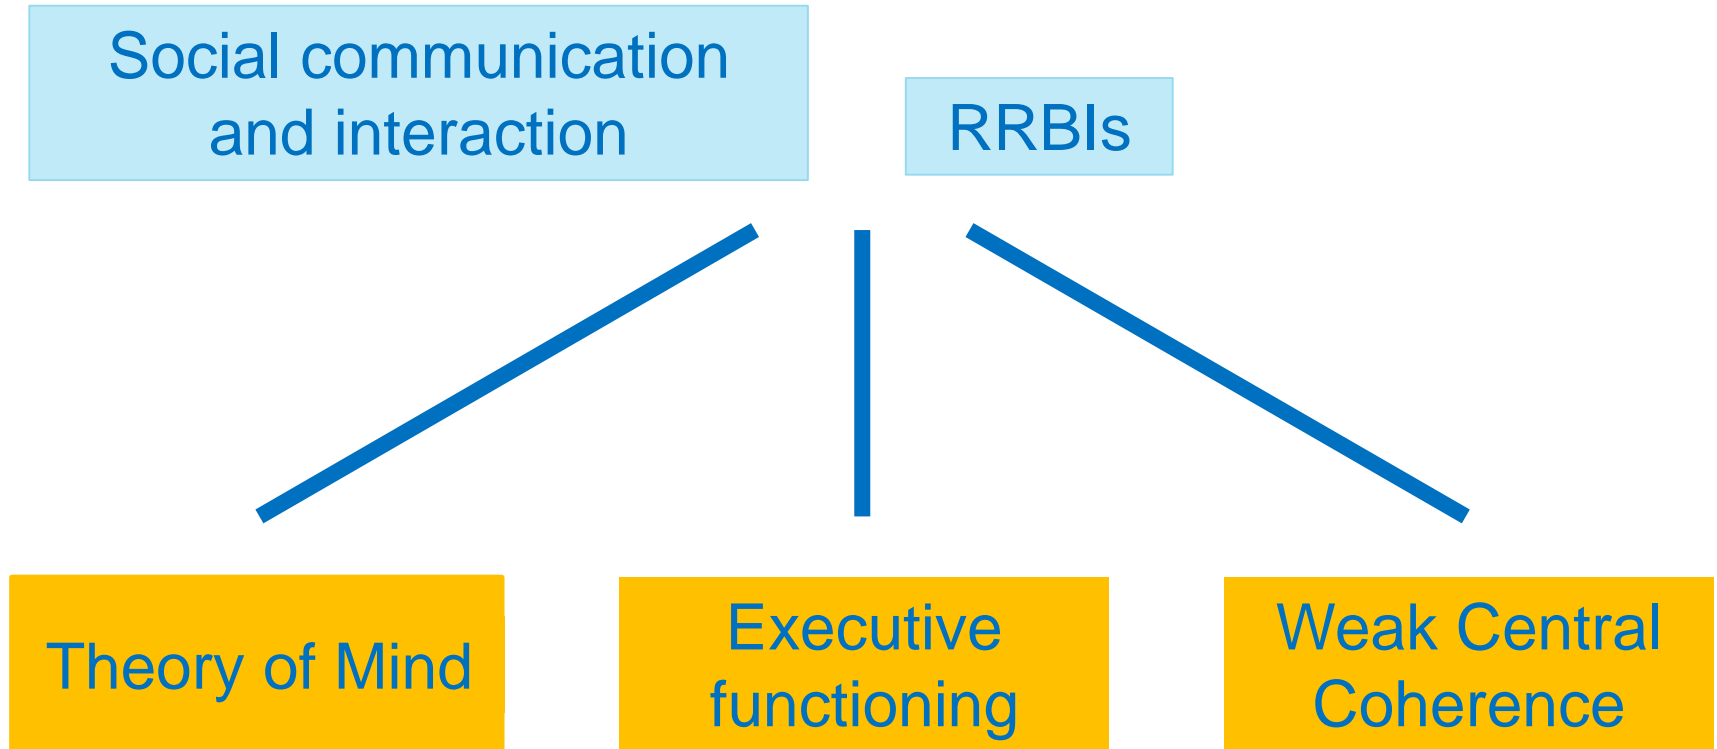

(Hilde Geurts)

BUT:  
Fractionation at the cognitive  
and behavioural level

# Presentation 1: EF and ASD

(Hilde Geurts)

BUT:  
Fractionation at the cognitive  
and behavioural level

# Presentation 1: EF and ASD

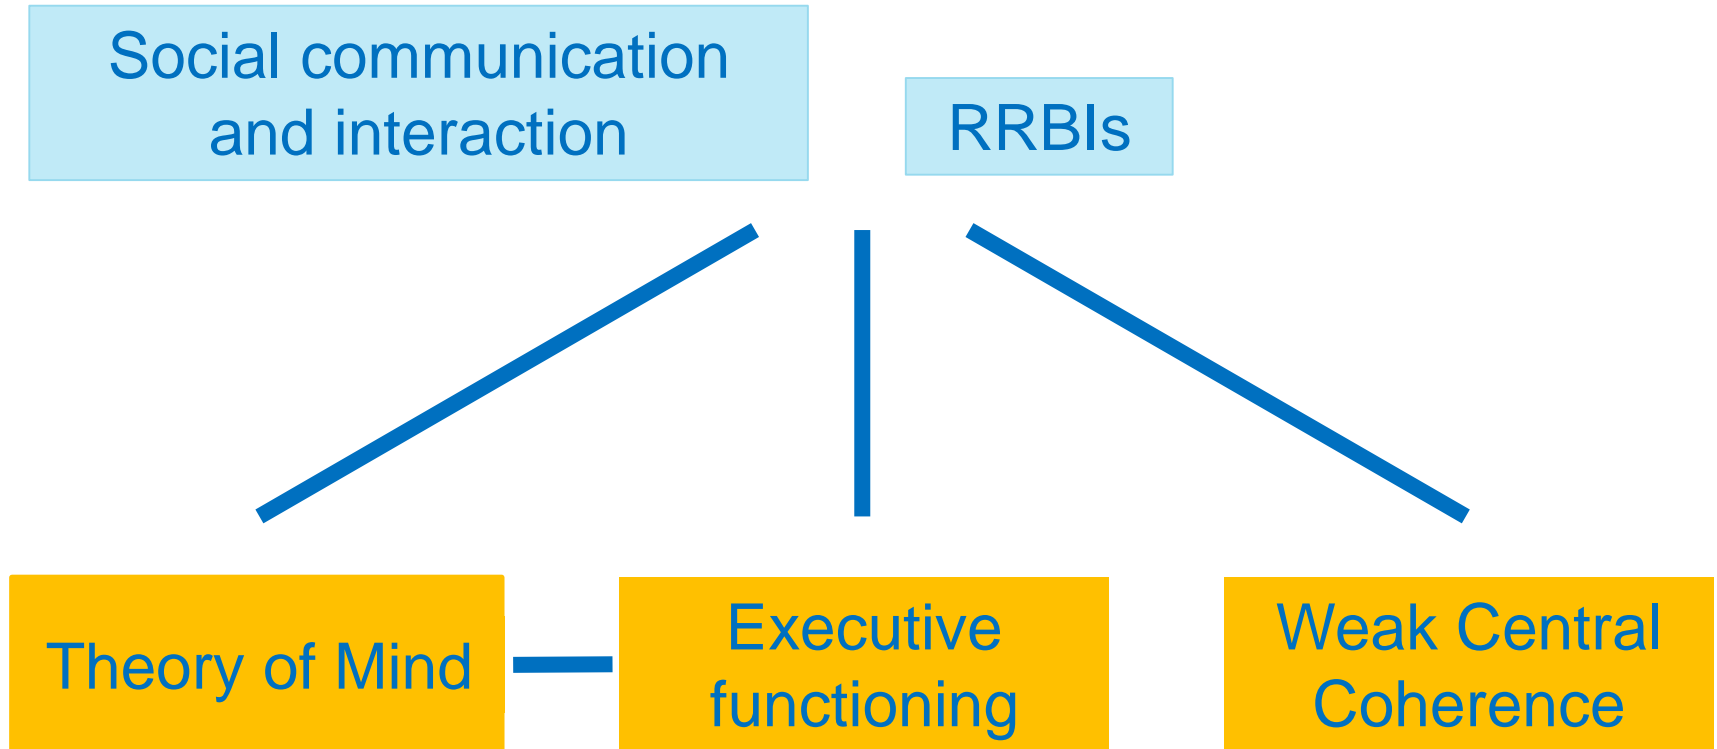

(Hilde Geurts)

Thus EF impairments:  
Not necessary, nor sufficient.  
But potential cause (?)

# Presentation 2: Link EF and ToM

(Roeljan Wiersema)

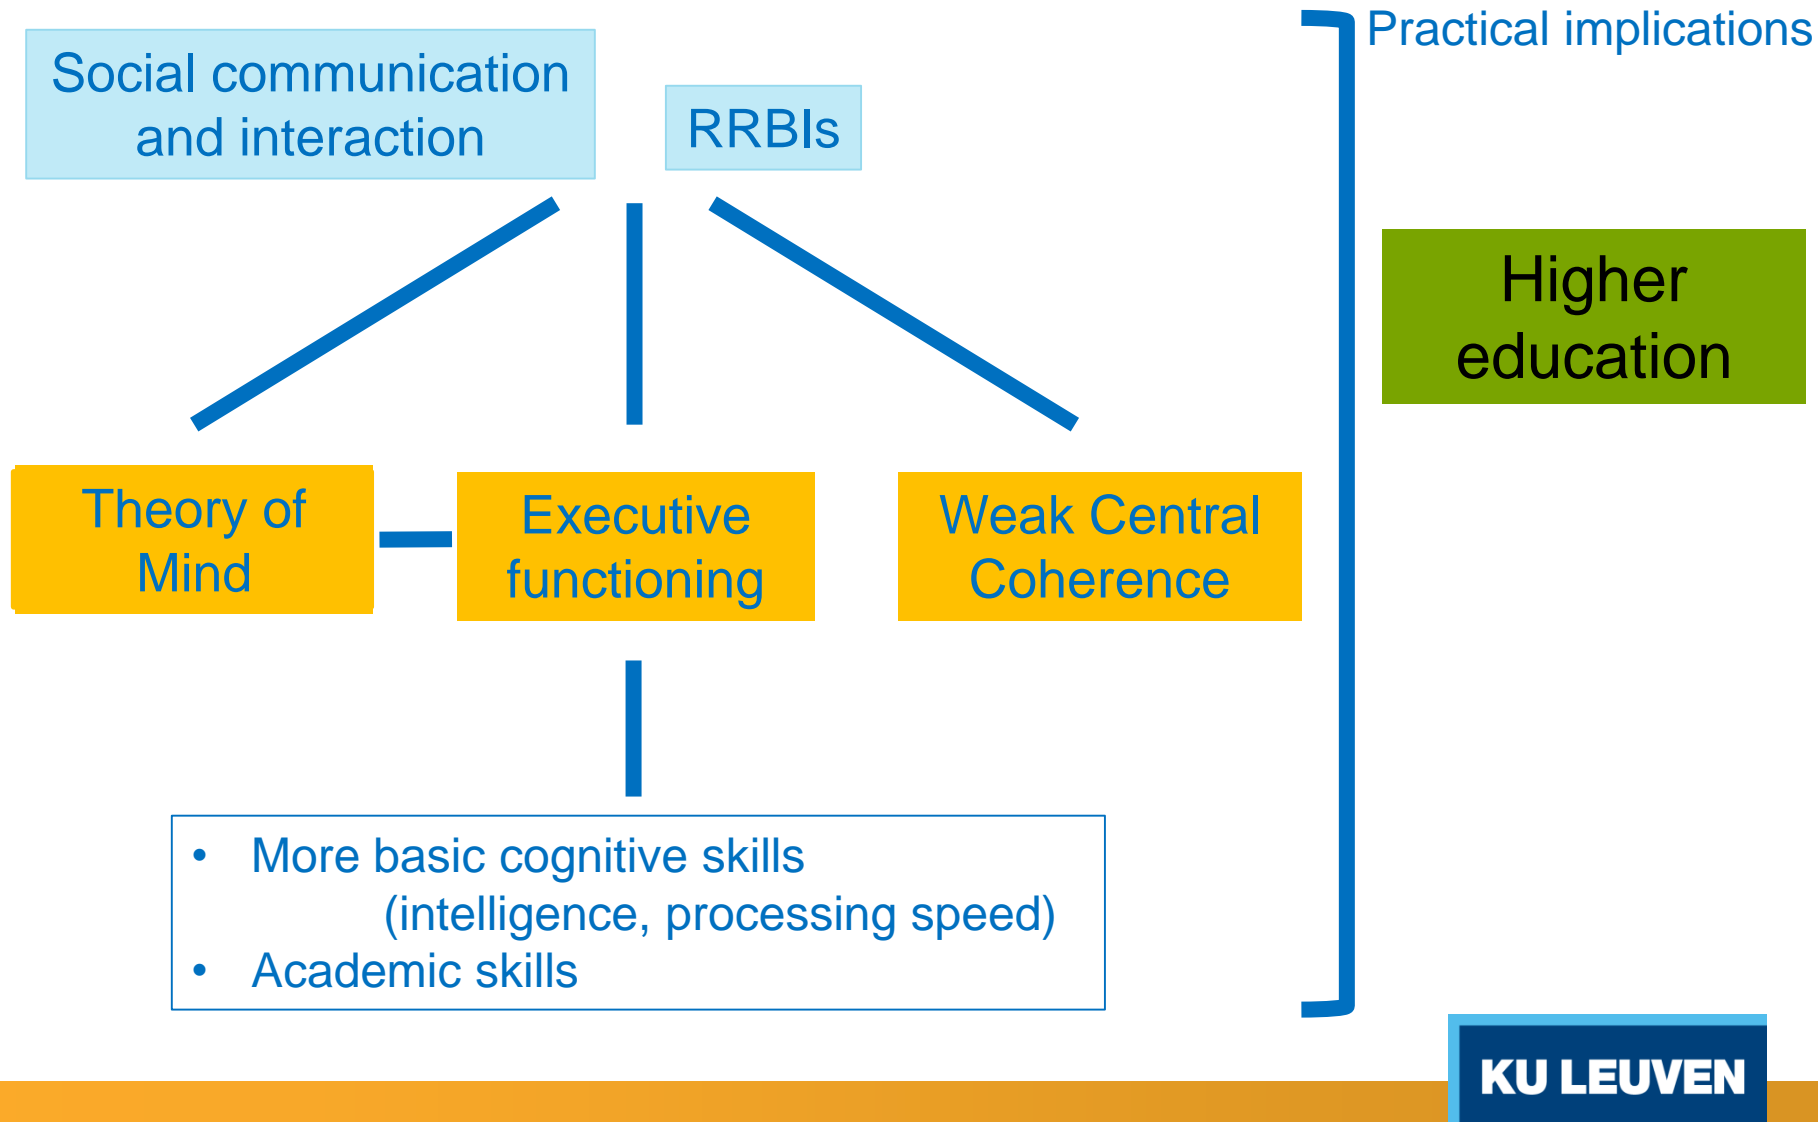

- Task dependent => Constructvalidity?
- Possible to measure ToM without EF? Desirable?
- Important to keep in mind, but strategy depends on research question

# Presentation 3 & 4: EF problems, practical implications

(Dieter Baeyens, Veerle Ross)

# Presentation 3: EF and higher education

(Dieter Baeyens)

# Presentation 4: EF and driving

(Veerle Ross)
